History

#1 - 03/01/2022 05:38 PM - Ogitnick

- File *lp2022.pdf* added
- Status changed from *New* to *In Progress*
- % Done changed from 0 to 30

The presentation slides have been finalized.

#2 - 03/01/2022 06:51 PM - Ogitnick

- % Done changed from 30 to 60

The demo is also finalized, but too large to upload here.

#3 - 03/01/2022 06:59 PM - Ogitnick

- % Done changed from 60 to 80

I forgot to mention I submitted the slides and demo to the appropriate teams at LP already.

The script for the speech is nearly finalized. It includes major talking points and details I want to mention that aren't on the slides. I have spent some time rehearsing, but I must spend more.

Everybody seems to be spelling "JavaScript" (with "S" capitalized), so we could do the same.

I'll let you know if I have any more suggestions

Done.

Oh, I see you wrote "Wojtech Kosior" when giving credit. Formal is "Wojciech", less formal is "Wojtek". "Wojtech" is not really a form of the name, except maybe in jokes :p

You also wrote "GFDL". Why not include a version? (either "GFDL1.3+" or "GFDLv1.3+")? Not that it is strictly wrong as it is now.

I also have some more thoughts to share but first I'd like to connect and see you present it

Fixed - That one was an accident. Perhaps I mixed up your formal and informal name.

Done.

I'll email you about this so we can sync up.

#10 - 03/25/2022 10:52 AM - koszko

- Status changed from *In Progress* to *Closed*

- % Done changed from 80 to 100

We made the presentation¹. Recording will hopefully be made available soon.
