Haketilo - Feature #4

make it possible to cache remote scripts

07/01/2021 11:25 AM - koszko

Status:	Rejected		**Start date:**	07/01/2021
Priority:	Low		**Due date:**

Target version:				

Description
When a script to inject is not stored locally but rather referenced by a URL, it gets downloaded every time it is needed. We could instead cache downloaded scripts to improve speed.

History

- Status changed from New to Rejected

Once we implement the new scripts/bags/pages schema, it'll be more convenient (and more in line with Haketilo's general direction) to only support loading locally-stored scripts, which makes this issue irrelevant.
